Signal B
Signal A
Gravity anomaly
Silica geothermometer
Lithium concentration
Depth to basement
Heat flow
Boron concentration
Magnetic intensity
Volcanic vent density
Fault intersection density
State map fault density
Signal C
Signal A
Lithium concentration
State map fault density
Spring density
Boron concentration
Magnetic intensity
Heat flow
Hydraulic gradient
Crustal thickness
Volcanic vent density
Precipitation
Signal C
Signal B
Fault intersection density
Quaternary fault density
Spring density
Drainage density
Lithium concentration
Boron concentration
Crustal thickness
Volcanic vent density
Gravity anomaly
Heat flow
Precipitation
